

To strengthen our freelance partnership we are looking for experienced:

Interim Manager / Partner Cost Engineering

with many years of experience in all aspects of strategic procurement in the capital goods industry.

You should have a degree in technical studies (e.g., mechanical engineering, technical business administration, industrial engineering or manufacturing technology). Several years of professional experience in industrial engineering or several years of professional experience in work preparation/production environment. We also expect at least 5 years of experience in a B- or C-level position, as well as at least 5 years of experience as an interim manager.

You should be familiar with the following technical applications:

- Confident handling of CAD models,
- construction drawings, parts lists and work plans
- Basic business knowledge in cost accounting
- Evaluation, analysis and optimization of product and manufacturing costs for new developments as well as series products
- Systematic analysis of the cost structure as well as detection of cost saving potentials for products and processes
- Integration into the ERP process

To ensure a successful and homogeneous cooperation, we expect the following **personal characteristics and skills** from a future Associate Partner:

- "Hands-On" mentality
- Systematic way of thinking and working
- Assertiveness and negotiation skills
- Interdisciplinary thinking and acting
- Integrating and mediating approach
- Ability to work and make decisions under time pressure
- Ability to accept conflicts and resolve them quickly
- Ability to work in a team and develop teams

German and English spoken & written are a prerequisite - any other language is welcome.

We look forward to receiving your application via this [hyperlink](#). You will hear from us!
