CURRENT TRENDS AND CHALLENGES IN AUTOMOTIVE & MOBILITY & THEIR INDUSTRY ENVIRONMENT

◦ **Regulatory Requirements**

... often result in cost- intensive product adjustments, innovations and investments

◦ **Changed Customer Expectations and decreasing Brand Loyalty**

... increasing personalized, networked, environmentally sustainable mobility solutions

◦ **Market Shifts and Supply Chains**

... new market players and their brands dominate in technology and structure and thus put established industry structures under pressure

◦ **Changed Purchase- and Usage Behavior - Purchase & Possess /**

„Pay per Use“

... In the near future consolidation of established sales- / service structures will result in new sales-/ service formats and new service providers will develop

◦ **Digitization of Products, Processes, Customer Experience**

... New technologies and digital possibilities transform the entire industry
